

**CITY OF LAGUNA BEACH  
MEMBER OF THE CITY COUNCIL**

**JANE EGLY**

**AGE: 61**

**OCCUPATION:** Professor of Law

Laguna Beach needs creative, lasting solutions to protect our quality of life against increasing pressures. The current City Council cannot reach consensus, is not exercising proper fiscal oversight and ignores the Vision 2030 Strategic Plan.

Together, we can change the Council's direction and find the solutions we need.

As an attorney for more than thirty years and an officer on non-profit boards with oversight responsibility for multi-million dollar budgets, I have learned to analyze complex issues, manage budgets and build consensus-based solutions.

As your Council person, I will implement the Vision 2030 Strategic Plan, stop piecemeal decisions and protect the integrity of our environment and neighborhoods. I will budget for infrastructure maintenance. I will support building the Village Entrance. I will wean the City from using Parking Authority funds for regular expenditures and use those dollars to solve our congestion issues. I will not support \$7,000,000 cost overruns.

As a long-term resident, Laguna Greenbelt board member and a mother of children who grew up in Laguna, I will protect the town we love.

I will never accept money from special interest: I will represent you, the citizens of Laguna Beach.
